The charge will offset all MCWA related cost. The current MCWA rate is \$4.77 per kgal or \$3.57 per CCF, as approved by the MCWA Board at its November 2024 meeting and recently upheld by the Circuit Court of Madison County. CMU is obligated to pay the prevailing MCWA rate. This MCWA usage charge, or "pass-through," will be assessed to all customers whose sewer enters the MCWA system (including many who are inside the City of Canton) and will align at all times with the then-current MCWA rate.</p> <p>Eleven percent (11%) of each rate listed in this tariff is designated for the CMU Reserve Fund. The purpose of the Reserve Fund is to provide CMU with the capital necessary to perform both emergency repairs necessary to maintain operations as well as necessary capital repairs and improvements, which are to be capitalized and depreciated. CMU is required by regulation to provide annual compliance audits regarding its use of the Reserve Fund. The Commission reserves the right to remove the 11% charge at any time in the event it has determined CMU has improperly spent Reserve Fund monies.</p> <p>Five (5) years after the rate is approved, the Commission will review CMU's latest compliance audit and the rate will continue if the purpose and need remains and the compliance audit reveals no concerns as to expenditures from the account. Each five (5) year interval thereafter, the Commission will review the 11% Reserve Fund charge and, based upon then-current purpose and need and compliance audit results, determine whether the charge should be discontinued or paused.</p>
